

Dear Swissenviro our valued customer

Africa Utility Week and POWERGEN Africa 2020 (notice of postponement)

Date: 30 July 2020

Please be advised that the Event, originally scheduled to take place on 24-26 November is now postponed to 11-13 May 2021 at the Cape Town International Convention Center, Cape Town. We will however be hosting a digital event over the 24 – 26 November dateline and will be sending you more information on this and how you can get involved.

This decision has been made with the safety of our customers, attendees, staff and suppliers at the forefront of our thinking and in light of both governmental directions and general public health advice.

With respect to our obligations to each other under the contract for the Event (the “**Contract**”), kindly note the following:

- the postponement is made pursuant to clause 6 (Force Majeure) of the Contract on the basis that it has unreasonably difficult to permit the Exhibition for reasons beyond our control and as a direct consequence of the ongoing impact of the COVID-19 pandemic including without limitation the practical requirements of the State of Disaster, issued by the President of the Republic of South Africa and which: (a) Grants the President of the Republic of South Africa Disaster Relief Powers and (b) requires strict adherence to the National public health’s directives;
- by way of reassurance, your booking for the Exhibition under the Contract remains unaffected and continues to apply to the new dates of the Exhibition.

The thoughts of all of us at Spintelligent (Pty) Ltd. continue to be with everyone affected by COVID-19. Please also be assured that we remain committed to delivering the best possible Event to bring value to your business. Should you have any queries about the postponement, please contact your account manager for more information.

Thank you for your understanding.

Yours faithfully,

Chanelle Hingston
