Ethio Weetex + Ethio Big 5

Trade Fair for Water, Energy, Electricity, Renewable (Solar, LAB, Wind) Energy, Technology and all-around Construction

Ethio Weetex + Ethio Big 5 will take place in Addis Ababa from July 07 to 09, 2021 for the 3th time, after a successful premier in 2018. The emphasis of **Ethio Weetex** (including Gas & Oil) + **Ethio Big 5** (including Mining Industry) will be on water, energy, renewable (solar, lab, wind) energy, electricity, electrical fittings, lighting and luminaries, wires and cables, oil and gas, building envelope and special construction, construction tools and building materials, MEP services and offsite and modular construction.

The rapid development of the economy and the intense population growth dramatically increases the need for the country's water resources, energy and especially electricity and modern technologies. Ethiopia employs different methods of electricity production, there are Power plants, Thermal power plants, Renewable energy and Hybrid (solar panels work during the day and turbines are driven by biofuels at night). The total capacity of the country's electricity are 4.4 MW. Solar energy is under vigorous development, after all its Africa and the Sun is plenty over there. Ethiopia is a leader in hydropower in Africa and the country has built many hydro power plants. The Grand Ethiopian Renaissance Dam (Dam Millennium) of about 6 Mw of capacity is currently under construction, it is one and a half times bigger than the currently available capacity. But even now, not only does Ethiopia supply electricity for itself, but also sells it for export. Since there is a significant amount of rainfall in Ethiopia, the rivers are full and there is sufficient water for irrigation thus irrigation systems are developing. For hydro-geographic network of Ethiopia the presence of lakes in the Great Rift zone is common. There is currently intensive industrial and civil construction in progress with the use of modern technologies. The good investment incentives are provided, including a package of measures to support investors, from obtaining a permit before granting soft government loans of up to 70 % of the project cost, duty-free imports of machinery and equipment for the production set up. For citizens of many countries, Ethiopia has granted visa-free access or visa on arrival. The share of import is increasing, and in the last ten years, went from \$4 billion in 2005 and reached more then 19 billion USD in 2015.

Ethio Weetex + Ethio Big 5 are being organized under the patronage of the Addis Ababa Chamber of Commerce, the Federal Democratic Republic of Ethiopia Ministry of Trade, Ministry of Water, Irrigation & Electricity and Ministry of Construction.

Figures 2019

Net Area	1'500 m ²
Exhibitors	105
Visitors	1'700

General Terms and Conditions for participation at Swiss Pavillons and other events abroad organised by „Swissenviro.ch“

1. Field of application

1.1 Swissenviro organizes Swiss participation on international exhibitions, other associate activities under the label „Swissenviro.ch“.

2. Tender and execution of contract

2.1 Registration for participation in an event/trade fair must be received by Swissenviro in writing within the time limit for registration specified in the participation documents. A registration received in good time does not establish a right to participation or a particular size or location of an assigned booth. Late registrations may be considered only based on available space.

The contract is deemed executed only upon written confirmation of registration by Swissenviro.

3. Payment terms

3.1 The full participation price must be paid in full within four weeks before the start of the event/trade fair; otherwise the Client shall not be entitled to participate.

3.2 In the event that the exhibitor becomes delinquent in a due payment and Swissenviro rescinds the contract effective immediately, the registration fees and agreed participation price shall be payable in penalty.

3.3 Swissenviro will invoice the costs of Special Services (section 5.2) after the close of the event; such charges shall likewise be payable within 10 days.

4. Delivery/changes/delinquency/cancellation

4.1 In the event that an exhibitor elects, after execution of the contract, not to participate or to reduce the previously agreed scope of participation, the registration fee and full participation price for the Basic Services, subject to the limitation in section 4.3, shall remain due along with compensation for expenses already incurred by Swissenviro for Special Services (section 5.2).

4.2 Cancellation of the contract by the exhibitor is effective only if in written form (by letter or fax). Cancellation by e-mail is not admissible. In the event of timely written withdrawal, the following reductions from the price of participation are granted:

– if received at least six months before the exhibition: 50% reduction;

– if received at least four months before the exhibition: 25% reduction.

If the exhibitor withdraws its registration less than four months before the exhibition, the full participation price and full registration fee are payable.

If the exhibitor arranges for a suitable replacement exhibitor to assume the executed contract under the same terms, the original exhibitor's obligations shall be discharged up to the amount of the payment of the participation price by the replacement exhibitor. The registration fee and additional expenses incurred by Swissenviro remain payable in any case. The replacement exhibitor is also required to pay the registration fee.

4.3 Swissenviro may undertake a reduction in the registered booth space or a change of location at any time (section 5.1). In this event the exhibitor shall be entitled to withdraw in writing within one week of receiving notification of such a change in the contractual terms if the exhibitor's interests are unreasonably adversely affected thereby. If the adverse effect is reasonable, the exhibitor may nevertheless withdraw from the contract but shall be liable for the costs of withdrawal. The costs of such withdrawal are calculated as specified in section 4.2.

4.4 If it becomes impossible to participate in a trade fair as planned, the registered trade fair participant shall not be entitled to indemnification for loss of any expected business transactions that would have occurred while taking part in the fair.

5. Special terms for participation in events/trade fairs Swissenviro services

5.1 Basic Services: On assuming organizational responsibility, Swissenviro undertakes to provide the Client with ideal conditions for participating in the trade fair and to make all arrangements necessary to organize a dignified and unified event in keeping with Switzerland's reputation. The price for Basic Services (participation price) includes rental of the exhibition space and the services specified in the announcement. Swissenviro is the sole principal for the Basic Services vis-à-vis third parties. Swissenviro assigns locations and booth space in cooperation with the trade fair management. Swissenviro will make all reasonable efforts to meet exhibitors' wishes in respect of location. Any confirmation of location and size of the exhibition space does not establish a legal claim. Swissenviro reserves the right to assign the exhibitor a booth at a location other than that confirmed, to change the size of the exhibitor's space (e.g. in the event of overbooking), to relocate or close entrances and exits to the fairgrounds and halls and to undertake other structural changes in the event that exceptional circumstances give rise to a significant interest on Swissenviro's part in undertaking such measures.

5.2 Special Services: All services above and beyond the Basic Services, unless expressly agreed otherwise, are invoiced separately as Special Services on a cost basis including any handling charge. These include, without limitation, additional equipment and furniture, outlets, installations and operating costs for electricity and telecommunications, water, compressed air, gas, etc. as well as services such as additional exhibitor IDs, parking cards, etc.

6. Exhibitor's obligations

6.1 The guidelines and rules established by the trade fair management are binding on all exhibitors. The responsible Swissenviro project manager or his or her deputy retain domiciliary rights. Swissenviro or third parties appointed by Swissenviro represent the interests of the Swiss exhibitors vis-à-vis the trade fair management.

6.2 The design and operation of the rented space must be in harmony with the overall image of the fair. The exhibitor shall comply with the instructions of Swissenviro or the trade fair management in this respect. Swissenviro's guidelines and instructions apply on a subsidiary basis for the design and operation of booths.

6.3 The exhibitor undertakes to complete the trade fair booth by the opening of the exhibition. The exhibitor is obliged to staff and supply the booth with exhibition materials for the entire time that the exhibition is open and to begin dismantling the booth only after the close of the exhibition.

6.4 Presentations of any kind and special actions (such as noisy or otherwise disruptive demonstrations, sale or free distribution of goods) are subject to express approval by Swissenviro. Visual or acoustic disturbance of neighbouring booths or obstructions in the booth and aisle spaces are prohibited. In the event of infringement, Swissenviro reserves the right at its own discretion to prohibit troublesome or obstructive presentations and, in the event of repeated infractions, to terminate the booth rental contract with immediate effect.

6.5 The engagement of local personnel, interpreters, etc. is in principle the responsibility of each exhibitor, but may be arranged through Swissenviro at the exhibitor's request and expense. Each exhibitor is responsible for ensuring that its event staff possess the required identification papers and permits.

7. Transport, insurance and security measures

7.1 Packing, round-trip transport, customs clearances, storage and insurance of the exhibited goods and empties are the responsibility of each individual exhibitor unless otherwise agreed.

7.2 Participation does not include insurance cover. Securing liability, accident, illness, property, repatriation insurance, etc. is the responsibility of each exhibitor. Even if Swissenviro prescribes a freight forwarder, insurer or connecting link for certain activities on a binding basis in individual cases, the legal relations are based solely on the agreements concluded between the exhibitors and the contracting party. Swissenviro's role in such cases is solely that of an intermediary. If Swissenviro provides the authorities with guarantees for the temporary admission of goods on behalf of exhibitors, the exhibitor undertakes to comply with the associated obligations and hold Swissenviro harmless.

8. Assignment/involvement of third parties

8.1 During participation in events/trade fairs, co-exhibitors may use the exhibition space rented by the exhibitor only with the written consent of Swissenviro and an additional registration. Co-exhibitors are participants appearing in some form in an exhibitor's booth, whether through lettering, exhibits or entry in the trade fair catalogue. A separate registration fee is charged for each co-exhibitor. When accepting co-exhibitors, the exhibitor is liable to Swissenviro for compliance with the present contractual terms and conditions, any individual agreements and for any damage caused by the co-exhibitor. Presentation of foreign exhibits or licensees of Swiss companies is permitted only with the approval of Swissenviro.

9. Warranty and liability

9.1 Swissenviro is not liable for late arrival of goods for exhibit, defective support by local representatives of Swiss companies, theft of or damage to goods for exhibits and personal effects, force majeure, official confiscation, etc.

9.2 Swissenviro refuses liability for adverse effects or damage occurring to the exhibitor through its own conduct in contravention of the contract. Swissenviro is liable to the exhibitor for damage demonstrably caused deliberately or through gross negligence by Swissenviro or its contracting partners (booth assemblers, trade fair management, graphic artists, etc.). All further liability of Swissenviro is excluded.

9.3 Swissenviro bears no responsibility if an event is not held or planned participation does not occur due to unforeseen compelling circumstances. The costs of Basic Services incurred up to this date will be invoiced on a pro rata basis to the registered exhibitors. Expenses for Special Services will be invoiced to the exhibitors on an individual basis.

9.4 Swissenviro is not liable to the exhibitor for any consequences arising from the location or surroundings of the booth.

10. Applicable law

10.1 Unless and except as these T&C contain provisions to the contrary, the legal relations between the parties are governed exclusively by Swiss law.

11. Jurisdiction

11.1 The exclusive place of jurisdiction for the legal relations existing between the parties is Pfäffikon ZH.

Illnau, march 2015
